

MAINTENANCE AND CONTROL OF MATERIALS

A student is responsible for books and equipment issued by the teachers and for books and equipment used in various classes, shops, or labs. A student is also responsible for books taken from the library.

Lost or damaged books, lost or damaged equipment must be paid for. Parents will be notified of these charges in writing and administrators will insist upon payment of full replacement costs.

When a parent fails to pay or refuses to pay, the administrator will notify the Superintendent of Schools who will take whatever action is necessary to ensure collection.

It is the responsibility of faculty members to ascertain the condition and numbers of books and equipment issued and to report to the appropriate administrator damages and/or loss.

No equipment can be borrowed from the schools without approval from the building administrator.
