

PHYSICAL EXAMINATIONS OF STUDENTS

The Windham School Committee is aware of the relationship between student health and success in school. Recognizing that parents/guardians bear the major responsibility for attending to the health needs of their children and that the school system has an interest in the well-being of its students, the Board adopts the following policy.

A. Physical Examinations and Screenings

Parents / guardians will be required to have their children physically examined prior to entering school and again prior to the sixth grade. Dental examinations shall also be encouraged.

Vision, hearing, and scoliosis screenings will be conducted as recommended and required by Maine law. Parents will be notified of any suspected health problems identified through screening.

School staff are encouraged to be alert to the general well-being of students and should refer any concerns to the building principal and/or the school nurse.

B. Participation in Athletics

Students who wish to participate in Middle School or High School athletics are required to have a physical examination and medical approval before doing so. Thereafter, students participating in athletics must have a physical examination on a schedule recommended by their health care provider, but not less frequently than once every two years. A student will not be allowed to participate in practice or competition without the required physical examination and medical approval on file at the appropriate school.
