

Dear Parents,

On June 8 and 9, 2010, students at Windham High School will be invited to complete an online survey. The survey is part of a research study and asks students about how they make food and beverage choices in the high school cafeteria. No personal or identifying information about students will be collected. Students will not be asked to put their name on the survey. Students may elect to not participate in completing the survey. If they do choose to complete the survey, they may choose to answer only certain questions. Should you have any questions regarding this information, please contact Stephanie M. Joyce, MS, RD, School Health Coordinator, at (207) 892-1800 ext. 2029. If you have questions about the research study or would like additional information, please contact the investigators:
