

Calling all recyclers!!

WPS wants to teach our students the importance of recycling and reducing the amount of trash we put into our landfills, and making our school more “Green”.

We are collecting all sorts of things and sending them to TerraCylce where they will be recycled and made into cool products! With each product we send in, Terracycle will donate money to our school to support our 21st century learners and help us get new technology.

We're collecting:

Please save any Elmer's glue containers (sorry we can only take Elmer's glue sticks or bottles) you use at school or at home. Just use all the glue. It's that easy! We will take care of the clean up and shipping. When you have some, just put them in the school “Glue Crew Brigade Bin”.

We are also collecting lunch kits (Lunchables and all other brands). Save the whole thing! The cardboard, the plastic container and the wrapper can all be recycled. Please save any lunch kits that you eat at school or at home.

And don't forget about our juice pouches! We save those too! Drink the juice, take out the straw (try to keep them flat).

The students will be recycling these products at lunch time and in their classrooms. We encourage parents to do the same at home and send them in.
